# YOUR TRUSTED PARTNER IN **VERTICAL MOBILITY**

Elevators

Parking Systems

[erosgroup.net](http://erosgroup.net)

## Our Values, Your Assurance

Our foundation is built on steady values that guide everything we do.

From leadership to the frontline, every member of EROS makes a promise of Total Satisfaction and lives it in every interaction.

### Safety

---

A safety-first mindset is ingrained in our very being. With rigorous standards and thorough quality checks, we build robust quality products you can depend on for years.

### Excellence

---

Our pursuit of excellence is what fuels our innovation. Count on us to give you world-class products, precise installation, and lifetime maintenance - all under one roof.

### Integrity

---

We lead with honesty and hold ourselves to the highest standards. Our relationship with you is founded upon our unwavering commitment to do the right thing.

### Teamwork

---

Our teams collaborate to study your evolving needs and serve you better with every new project. That's how we exceed your expectations and define success together.

### Commitment

Every promise we make, we keep. We nurture trust through consistency in quality and service, ensuring we earn your loyalty with sheer diligence.

# Engineering for a Better Urban Life

The relentless pace of urbanization demands a new era of vertical mobility — one that's faster, smarter, and safer than ever before. We're here to meet that demand, not just with products, but with a passion for engineering solutions that elevate urban living and solve real-world problems.

Our reputation for reliability, accountability, and ethical business practices is a cornerstone of our brand. Guided by our motto, "**rise above the ordinary**," we're driven to create solutions that support a truly smart, sustainable, and secure urban future.

Looking ahead, we remain committed to making a positive impact on both lives and landscapes for generations to come. We are not just moving people—we are moving cities forward.

# Decades of Passion, Generations of Trust

In 1947, EROS started as a trusted maintenance partner for imported elevators. What began with service soon grew into a passion for engineering excellence, setting the foundation for decades of progress.

By 1965, we began in-house manufacturing. Through the 1980s, we strengthened this commitment by bringing end-to-end elevator manufacturing and maintenance under one roof

Since then, EROS has continued to innovate and deliver vertical mobility solutions made in India, for India. In 2011, we expanded our vision by launching automated parking systems under a new brand - SKYZONE.

Today SKYZONE stands among India's top three smart parking providers, boasting of 10,000+ car spots installed and 5,000 more underway as of 2025.

With our headquarters in Mumbai and branches across the nation, we continue to expand our footprint.

Whether it is ensuring safe vertical transport or solving space challenges in modern cities, we think ahead and innovate with one purpose - to elevate urban life and rise above the ordinary.

# Rising Higher, Year After Year

A timeline of breaking barriers and setting benchmarks.

1947

Foundation laid for EROS

1947

Started in-house elevator manufacturing

1965

Pioneered indigenous automatic door elevators in India.

1985

Diversified into manufacturing car elevators.

1992

Introduced South Korean car parking tech in India.

2008

Launched India's first 150-car automated parking system.

2010

Established SKYZONE

2011

Partnered with ThyssenKrupp Elevator India

2011

Secured a deal with TATA Housing for high-speed elevators.

2014

Launched elevators with a speed of 3.5 MPS

2017

SKYZONE parking systems certified by IIT Bombay.

2017

Introduced elevators reaching 5.0 MPS

2018

Unified the EROS Group brand across elevators and parking systems.

2019

Started a new Customer Experience Centre in Mumbai.

2024

Moved to a new head office in Mumbai.

2025

Launched a high-tech factory in Pune for in-house quality production.

2025

**EROS ELEVATORS**

ESTD 1947

**Elevators Built for  
Every Space,  
Every Need**

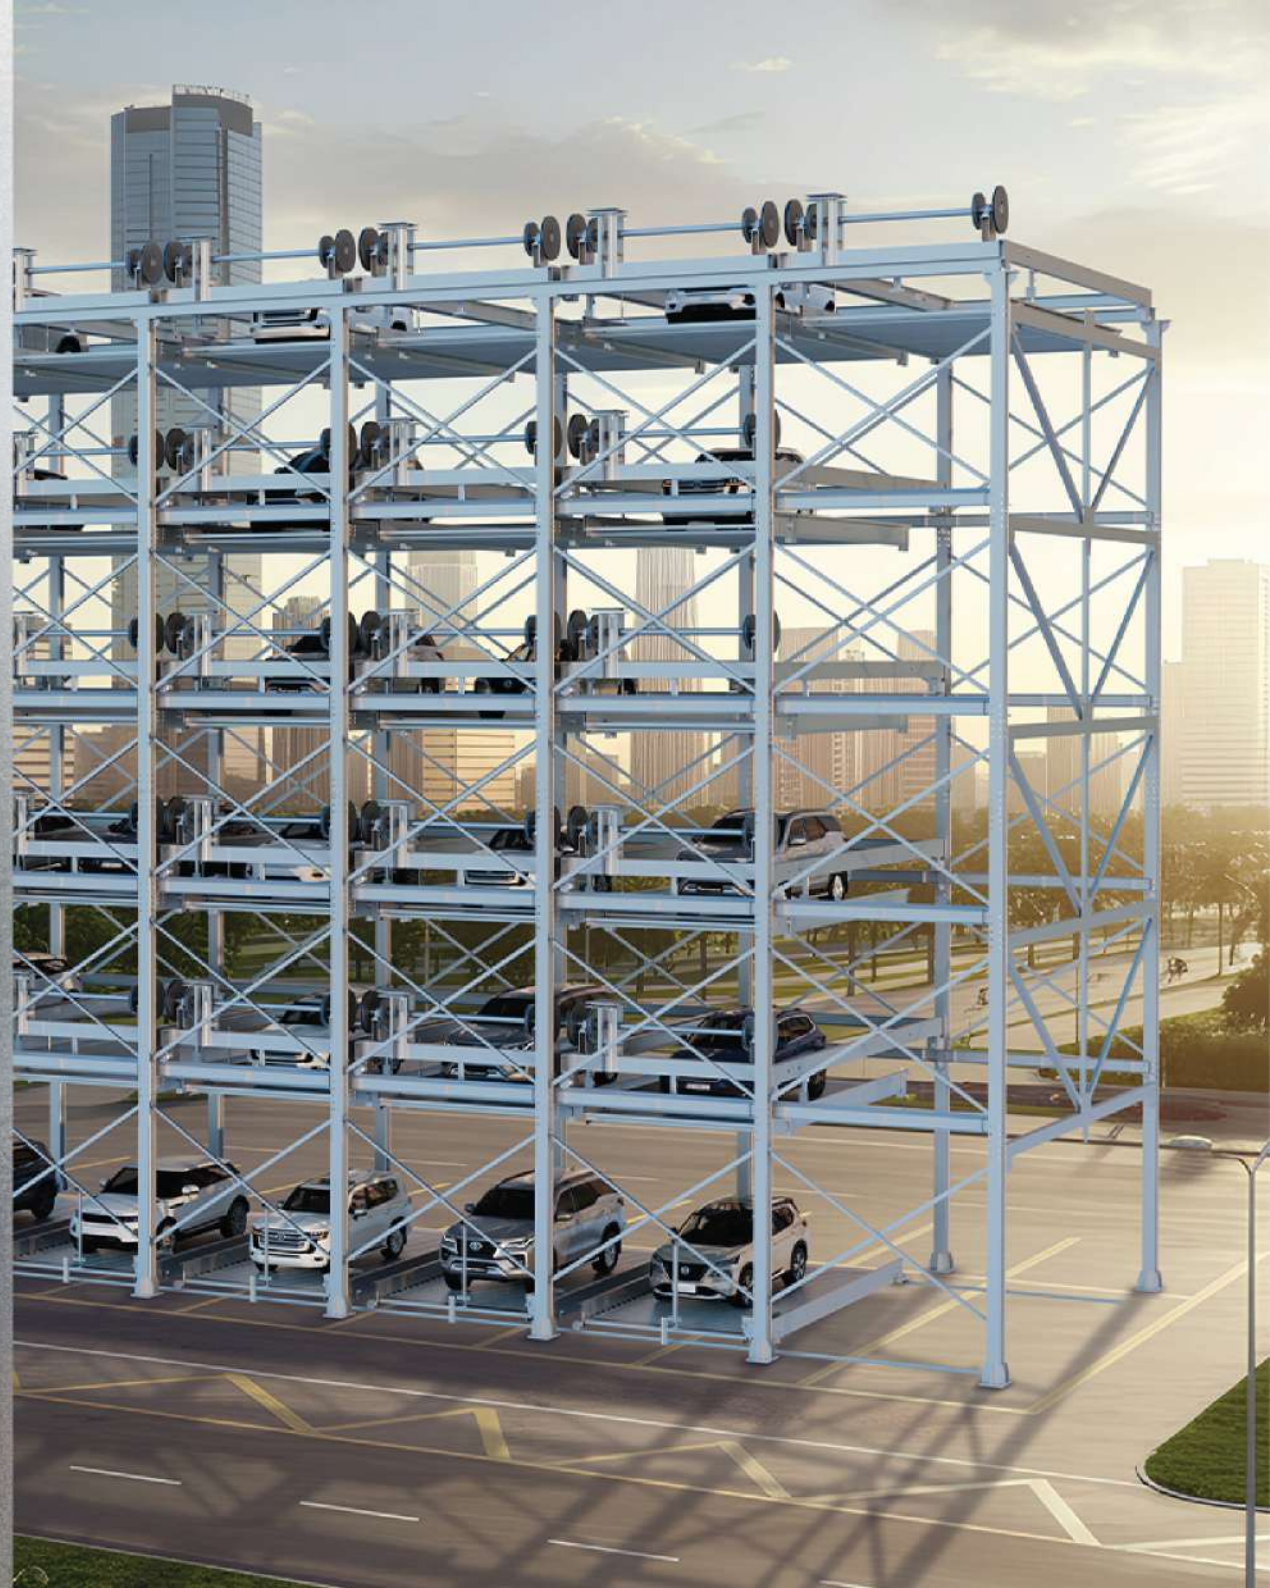

---

# Smart Parking Solutions for Cities of Tomorrow

---

# Elevators for Every Need

## Passenger Elevator

Smooth, reliable travel for residential and commercial buildings

## Car Elevator

Secure, space-saving transport for vehicles in compact or premium properties.

## Home Elevator

Compact and comfort, seamlessly integrated into personal homes.

## Freight Elevator

Heavy-duty strength for safe, reliable goods transport.

## Fire Evacuation Elevator

Emergency-ready systems with advanced safety for secure evacuation.

## Hospital Elevator

Spacious, smooth lifts for patients, stretchers, and equipment.

Versatile systems engineered for comfort, safety, and performance across all applications.

# Parking for Every Space

## Tower Parking

Fully automated vertical stacking, best for tight urban spaces and premium sites.

## Cart Parking

Shuttle-based system for fast, contactless parking in high-density projects.

## Puzzle Parking

Modular semi-automated stacking, perfect for mid-density and retrofit spaces.

## Horizontal Circulation Parking

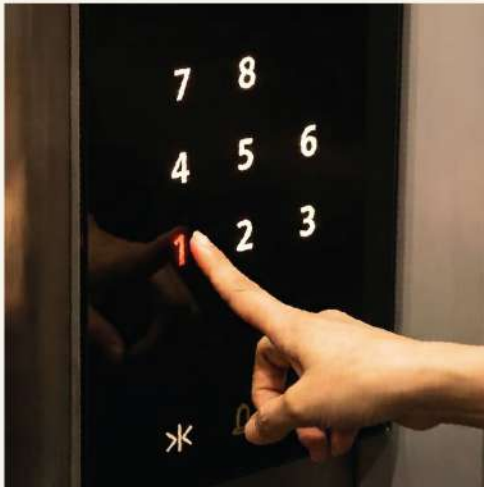

Efficient horizontal movement for basements, narrow plots, and low-height areas.

Advanced automated parking solutions engineered to fit every project size and site condition.

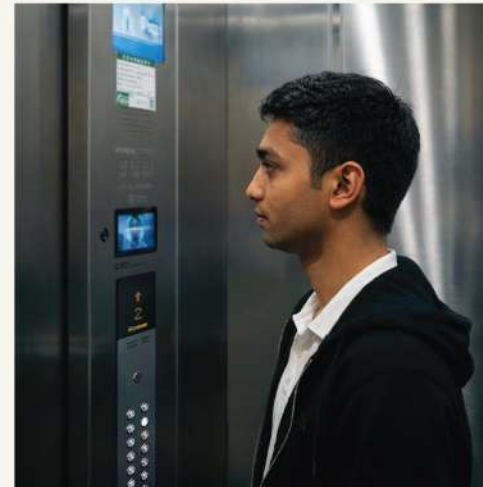

# Smart Technology that Moves You Forward

The future is tech-driven and so are we. Our elevators and parking systems come equipped with intelligent features that make every ride safer, smarter, and more convenient.

## Touch-Free Panels

Sensor-enabled buttons that remove physical contact, enhancing safety.

## Facial Recognition

AI-powered access with instant identification and automated floor mapping.

## BMS Integration

Unified control through smooth integration with building management systems.

## Real-Time Monitoring

Live tracking with access logs.

# Our Infrastructure

**Built to Excel. Equipped to Deliver.**

**Focused R&D unit**  
for product innovation

**Experience zones with**  
live product models

**Centralised logistics**  
for faster delivery

**In-house robotic**  
manufacturing

**Technical training zones**  
for service teams

**In-built waste control**  
mechanism system

# We Promise. We Deliver.

For us, service isn't an afterthought — our foundation lies in delivering reliable, responsive, and expert service that keeps every system performing at its best.

Our proficient maintenance team helps you stay ahead. By combining decades of experience with **AI-powered ERP Systems**, we — track performance, predict and resolve issues early, so your elevators and parking systems operate smoothly for years.

When you choose Eros Group, you're choosing **service from the Original Equipment Manufacturer (OEM)** — the people who built your system.

That means:

Genuine OEM Parts for safety and long-term performance

Certified Technicians trained by our R&D and factory experts

Smart Tools & Remote Monitoring for instant diagnostics

Comprehensive AMC Programs for total lifecycle care

Predictive & Preventive Maintenance to avoid downtime

Real-time data and automated workflows

Backed by skilled engineers and the proven reliability of EROS Group, your system stays protected. With Eros, you get more than mobility — you get a lifelong service partner.
